On Monday last, Mr. Livingston Satterlee, treasurer of the S. R. He then turned over to the committee all the securities belonging to the Infirmary, amounting to over \$75,000, which were examined and found intact. Mr. Satterlee signed checks against money held in bank for the institution, to me as chairman of the finance committee, for all maturing payments, and I have every reason to believe that every dollar of the small amount remaining in the treasurer's hands is at the disposition of the committee, when called for, and when a new treasurer is appointed to act and receive and pass his accounts and vouchers. The statement sizned by E. C. Bridgman, secretary of the Infirmary, daied May 22, 1891, is true in every particular, and charges to the contrary, or to the effect that the finances of the institution will suffer through Mr. Satterlee, are unfounded, and, during his filness, are malicious.

Albany, May 23.-The Private Line Printing Telegraph Company was incorporated to-day, with a cap ital of \$25,000. The company will operate lines of telegraph from New York City along all railroads and other convenient ways and courses to Albany and Buffalo and intermediate cities and villages in New-York State, and also from New-York City to points of Long Island, Jersey City, and Staten Island, and also lines from New-York City to connect with all cities and towns within thirty-three miles of the City Hail, New-York, in all directions. The directors are William H. Hurst, Eugene Dawin, John J. Walsh, Adolph G. Hummel and Edward J. Murphy, of New-York City: Emil A. Wirsching and Frank A. Graham, of Erooklyn.

John J. Walsh, one of the directors, told a Tribune reporter last night that the new company had nothing to do with any racetrack or poolroom scheme. As denied that anything had as yet been done in the way of planning lines near this city. "The company is simply organized to introduce a new invention," said Mr. Walsh. "We have a very convenient telegraph machine, somewhat on the ticker order. It is worked like a typewrifer and prints its message at both ends of the line. Adolph G. Hommel and Frank A. Graham, two of the directors of the company, are the inventors of the machine. We intend to try to introduce the inventor in cases where private telephones are now used. It is much better than the telephone, owing to the message being recorded. It will probably come into use largely between brokers' offices, and between factories and storehouses."

THE DISTURBANCE IN THE PROVINCE OF CORDOVA PROMPTLY QUELLED.

BELIEVED TO HAVE BEEN INSTIGATED FROM BUENOS AYRES.

Buenos Ayres, May 23.-The statement that revolution had broken out in the Province of Cordova is confirmed. There was firing in the streets of is confirmed. There was firing in the streets of Cordova, the capital of the province of that name, on Thursday and Friday. It is believed that the revolt was instigated by the leaders of rival factions in Enenos Ayres. Troops last night quelled the disturbance. The insurgents had cut the telegraph wires, but communication with Cordova has been restored by the Government troops.

DULNESS OF THE LONDON SEASON. MUSICAL AND LITERARY NOTES-VALUABLE

PAINTINGS BROUGHT TO LIGHT. London, May 23.-The present London sea social, dramatic and musical entertainments has been the dullest on record, in spite of the many so-called attractions which have been presented. This dulness may, in the main, be attributed to the financial de-pression, the prevalence of influenza, the many deaths resulting from that disease and the cold weather.

At the Royal Italian Opera this week the success of Van Dyck, the new tenor from the Vienna Opera House, in the part of Des Grieux, in Massenet's opera Manon," which was produced for the first time in this country in French on Tuesday night, and the triumph won by Mile, Mravina, a new-comer from the St. Peters burg Opera House, as Margherite in "The Huguenots," presented on Wednesday night, have rather detracte from the attention bestowed upon Miss Sybli Sander son, the American artist, who played the title part in "Manon." On the morning following the first performance at Covent Garden of "Manon," the critics were found to have come to the conclusion that Miss Sanderson had hardly realized expectations, though she as warmly received. In spite of the cordial reception iven to Miss Sanderson, it cannot be denied that the ess of her voice has been so noticed that it has caused a discussion as to the methods of her teacher Marchesi, whose other pupils are said to show a similar defect. The fact is, however, that Massenet's work is too light for such a large house as Covent Garden. So far "The Hugnenots" has attracted the most brilliant and best-paying audiences of the season.

An auction at an old country mansion on the Isle of Man this week revealed a collection of valuable paintings which had been formed there by an American resident early in the present century. The discovery will be brought to the attention of the trustees of the Na tional Gallery.

FOR NEW BANKING METHODS IN ENGLAND. FEELING IN LONDON FINANCIAL CIRCLES-FAILURE OF THE PROPOSED CANADIAN LOAN.

London, May 23.—"The Daily Chronicle" to-day says that there is a strong feeling in financial circles that the money market ought to be placed upon a different footing. "The framework of the money market," "The Chronicle" adds, "is antiquated, and no longer suitable to the conditions of recent years."

Mr. Lidderdale, the governor of the Bank of England. called as meeting yesterday of representatives of the big bill-buying banks, to consider questions bearing Bank of England in view of exceptional circumstance which may arise. The indications are that a change in present banking methods is deemed necessary.

Paris, May 23 .- The negotiations which have been in progress here with the view of raising a new Canadian loan have been fruitless. ADVOCATES LYNCHING AMERICANS. MEXICAN NEWSPAPER'S PROPOSAL - THE WORLD'S FAIR COMMISSION.

City of Mexico, via Galveston, May 23.-" El Tiempo," a leading Conservative newspaper, noted fo its anti-American tendencies, in speaking of the Mafia in New-Orleans, and of lynching in the United States, ays: "For the protection of Mexicans in the United tates, steps should be taken by the Mexican authorities so that, until the American Senate decides that foreigners are under Federal protection, Americans may be lynched in Mexico."

The action of the Chicago Fair Commissioners in sending a woman here as Commissioner is being dis-cussed, and it is asserted that it would be much better to name a Mexican ladies' commission, headed by the wife of President Diaz.

Meunier is a widower with two sons. He courted Mile. Jactel, a wealthy young woman, who rejected him because he was poor. Meunier then engaged in a series of robberies, and finally murdered a priest and the latter's servant. By this crime Meunier appears to have obtained possession of some money, for he renewed his attentions to Mile. Jactel, but her mother objected to his children. This so incensed Mennier that he set fire to the Jactel residence, and its occupants narrowly escaped with their lives. Meunier had not been detected in any of these crimes, and again renewed his suit. After another interview with Mile. Jactel, who then appears to have been willing to marry him, Meunier smothered his eldest boy and afterward shot and seriously wounded Mile. Jactel's brother, who had forbidden the proposed marriage. Meunier, when arrested, confessed to all the crimes except the murder of the priest and the latter's servant.

At the factory of Bergman Bros., in West Thirty-fourth-st, considerable surprise was expressed yesterday at the statement that their motor had been decided upon by the Rapid Transit Commissioners. HARLEM SUNDAY-SCHOOL CHILDREN PARADE. Only two Sunday-schools in this city celebrated Anniversary Day yesterday in the old-time way. The Lexington Avenue Baptist school, which numbers 1,100 pupils, with J. B. Coe as superintendent, and the school of the Baptist Church of the Redeemer, which has 500 names upon its roll, with James Knowles as superintendent, met together in the Pilgrim Congregationalist Church, at Madison-ave. and One-hundred-and twenty-first-st. After singing their anniversary songs and listening to addresses by the Rev. J. L. Campbell, Mr. Coe and Mr. Knowles, the children began their march around Mount Morris Park. To those people whose windows look out upon this picturesque and beautiful park a pretty sight was presented as these Sunday-school children filed out of the church doors The Lexington-ave, school marched out of the south door and down Madison-ave, to the park entrance at One-hundred and twentieth-st., then along the south side path, while the other school passed out of the north door, up Madison-ave, to the One-hundred-andtwenty-fourth-st, entrance and along the north-side path. As they passed each other on the west-side path and again on the east walk their greetings and theers could be heard throughout the neighborhood.

All the classes carried their bright banners, and the hnant class of the Church of the Redeemer carried small silk flags. After the circuit of the park was made each school returned to its own church and all scre served with ice-cream and cake. PESHALL PUT OUT OF THE KENNEL CLUB. Charles J. Peshall, president of the New-Jersey

Sockey Club, was formally put out of the American Kennel Club, at its meeting at No. 44 Broadway on Darsday. He was present with a stenographer, who Was sent out of the room by a resolution to exclude all who were not members. Amid much confusion, resolution declaring Peshall to be disqualified was passed, and he left the meeting. He has brought suit Mainst August Belmont, the president, Washington Connor and other members of the club for \$100, 000 for libel. The trouble grew out of Peshall's publicly charging A. P. Vredenberg, treasurer of the club, with "juggling" with his accounts. Peshall was indicted on a charge of criminal libel, but was ac-

quitted after a long trial. Mr. Connor said last night that he had merely joined the Kennel Club because he had a St. Bernard dog which he had exhibited in several shows. He had never attended a meeting, and had never said anything about Peshall, one way or the other. He was anxious, he said, grimly, to hold up his end of the suit.
